

An aerial photograph of a rugged coastline. The top half shows deep turquoise water with white foam from breaking waves crashing against dark, jagged rocks. Below the rocks is a sandy beach. In the foreground, a large, curved, light-colored structure, possibly a swimming pool or a walkway, is visible. It has several white square markers along its edge. The water inside the curve is a lighter turquoise color. A small, colorful beach umbrella is visible on the sand to the right.
